-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## Status

- 1) ☒ Responsive to communication(s) filed on 10 February 2004.
- 2a) ☐ This action is FINAL. 2b) ☒ This action is non-final.

***Drawings***

1. The drawings are objected to because fig. 3, item 20 should be labeled with descriptive text (37 C.F.R. 1.83(a); MPEP 6.08.02(b), Form Paragraph 6.22, Examiner's Note #1).

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

***Specification***

2. The disclosure is objected to because the description of fig. 4A on pages 5 and 6 is contrary to the description of "From DS" and "To DS" on page 2, lines 13-16.

Appropriate correction is required.

***Claim Objections***

3. Claims 1-4 are objected to because in independent claim 1, lines 1-2, “the frame signal pass” should be --a frame passing-- for clarity. Appropriate correction is required.

***Claim Rejections - 35 USC § 101***

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

4. Claims 8-9 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter (note: the data structure does not cause provide a functional relationship to a computing device - MPEP 2106 (IV)(B)(1)(b) - nonfunctional descriptive material).

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-2 and 4-9 are rejected under 35 U.S.C. 102(e) as being anticipated by Yeh (US 2005/0135422).

Art Unit: 2666

5. Regarding claims 1, 5 and 8, Yeh discloses a method of transmitting frames in a wireless local area network (fig. 1) through a repeater (fig. 1, item AP-X) and a bridge (fig. 2, item AP-Y). The method comprises the steps of transmitting a frame from a source station ((STA-1) to the repeater (para. 24, lines 1-7) and replacing the content of the BSSID with a bridge identifier (fig. 3, step S310; para. 24, lines 7-13) and transmitting the replaced frame from the repeater to the bridge (para. 24, lines 14-18).

6. Regarding claims 2, 6 and 9, the repeater transmits an acknowledgement frame to the source station (para. 24, last three lines).

7. Regarding claims 4 and 7, the IEEE 802.11 data frame of Yeh includes a distribution field as noted in applicant's admitted prior art on page 1, second paragraph and page 2, second paragraph.

#### ***Allowable Subject Matter***

8. Claim 3 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

#### ***Conclusion***
